### TO WHOM IT MAY CONCERN

This letter serves to confirm that Mr Matimba Makhubele, I.D 900417 5680 084 was an electrician Apprentice under this Municipality, from 1 March 2023 to 31 May 2024. His performance and behavior throughout the programme was satisfactory.

**His duties included, but not limited to the following:**

- Utilization of basic hand and power tool**

This entails the regular inspection of tools to make sure that they are in good condition and are safe for use and to observe safety while utilizing those tools, this is achieved by applying the safety methods of using the right tool for the job at hand. Keeping the floor dry and clean to avoid slippery while working with or around dangerous tools.

- Ability to use different electrical testers**

This entails the correct use and application of a digital multimeter, insulation resistance tester, amp meter voltage tester, phase rotation tester and a plug tester e.t.c

- Interpretation of relay alarm circuits**

This entails the ability to understand the basic operation of relays, to read and interpret the basic relay alarm circuits.

- Safety awareness**

This entails basic safety awareness. Because of the everyday electrical work environment, safety awareness means: to avoid contact with water at all times when working with electricity, not to touch or try repairing any electrical equipment or circuits with wet hands, always use insulated electrical tool, never try repairing energized equipment, always isolate the circuit before working
